Solutions through innovation

Purchase any Select Digital Dry Bath and get at least 15% discount off list pricing

Single, dual and four block capacity

Temperature range: Ambient +5° to 150°C

USB connectivity enables data traceability

Dual display

from **\$620** ex-GST

This offer valid until 28 December 2018

The Select BioProducts Dry Baths provide a broad temperature range up to 150°C, which makes them useful for a variety of applications in molecular biology, histology, clinical, environmental and industrial laboratories. They have been designed to incorporate the best combination of features including block capacity, dual displays, and an external temperature probe that gives life science researchers the confidence and efficiency they need when working with precious samples.
