

- Suits Flasks Up To 2 Litres
- Stainless Steel Construction
- Quiet Operation
- 250-2,400 RPM Speed Adjustable
- Powerful DC Motor
- Unparalleled Reliability

Compact Yet Powerful

Featuring a powerful Swiss made motor, the MS8 is capable of stirring containers up to 2 litres at 2,400 RPM with ease, and powers away where many solid-state brands fall down. Smooth speed control is provided via the easy to use front panel knob, and operation is extremely quiet even at maximum speed.

SPECIFICATIONS

MS8	
Mixing action	Vortex using PTFE coated stirring bar (not supplied)
Capacity	Flasks and bottles up to 2 Litres
Speed range	250 - 2,400 RPM
Speed control type	Solid state analogue
Motor and drive type	Swiss made DC motor with direct drive
Power input	240VAC/5 Watts
Overall dimensions	W165 x D120 x H85 mm
Nett weight	1.5 kg

The MS8 features a stainless steel case which is powder-coated for added resistance to chemical spills and is easily wiped clean when required. A non-slip mat ensure flasks are held in place securely whilst mixing.

Applications include dissolving solids in liquids, stirring of volatile solutions, as well as other general Microbiology and Biochemistry applications that require light agitation or vigorous churning.

The MS8 was first introduced in 1996, and the thousands of units still in operation today are testament to it's reliability.

A compact, reliable and powerful magnetic stirrer is an essential tool for every lab workstation, and the MS8's proven track record and powerful mixing make it ideal for a wide range of applications, day in, day out.
