

Axygen® GEN3 Multi-barrier Pipet Tips

The Ultimate Self-sealing Tip

Multi-barrier Technology

Axygen GEN3 multi-barrier filter pipet tips offer the ultimate in protection against cross contamination using tri-filter technology. These tips will prevent liquid or aerosol from passing through and will lock on contact, ensuring your valuable samples and research are not compromised.

Unlike other self-sealing barrier tips that can possibly inhibit PCR, GEN3 tips effectively separate liquid from the self-sealing barrier using an additional protective layer of conventional polyethylene filter material.

In addition to the self-sealing properties, our GEN3 multi-barrier pipet tips feature our exclusive Axxygen Maxymum Recovery® technology that reduces the amount of reagent or sample adhering to the pipet tip. This allows complete sample retrieval. Maxymum Recovery also reduces the risk of DNA denaturation.

Offered in racks and pre-sterilized via e-beam, tips are RNase-/DNase-free and nonpyrogenic.

Features and Benefits

- ▶ Multi-barrier self-sealing filter prevents aerosol or liquid cross-contamination
- ▶ Proprietary filter design prevents possible PCR inhibition
- ▶ Maxymum Recovery technology for ultra-low retention and high yield
- ▶ Hinged rack for convenience and ease of use
- ▶ Pre-sterilized; no need to autoclave
- ▶ RNase-/DNase-free
- ▶ Nonpyrogenic
- ▶ Human gDNA and PCR inhibition-free

Performance Comparison of Filter Pipet Tips

These images show a visual comparison of the Axygen® GEN3 filter pipet tip compared to a conventional filter tip following the over-aspiration of a colored liquid.

GEN3 Multi-barrier Tip

Axygen GEN3 multi-barrier pipet tips seal on contact with liquids and prevent liquids or aerosols from passing through, reducing cross-contamination.

Conventional Filter Pipet Tip

Liquid passes through the conventional filter pipet tips causing cross-contamination.

Axygen Maxymum Recovery® is included as a standard feature on all Axygen GEN3 Multi-barrier Tips

Utilizing a unique manufacturing process, the Axygen Maxymum Recovery range offers an innovative series of pipet tips, filter tips, PCR products and microcentrifuge tubes.

- ▶ Ultra-smooth surfaces
- ▶ Exclusive molding technology
- ▶ Reduces sample loss and saves costly reagents
- ▶ Maximizes accuracy and precision

Axygen Maxymum Recovery tip after dispensing 100 µL sample

Conventional tip after dispensing 100 µL sample

GEN3 multi-barrier tips are human gDNA and PCR inhibition-free.

Axygen GEN3 1,000 µL multi-barrier tips, Maxymum Recovery surface

Surface Comparison of Polypropylene Materials

These images show a visual comparison of the Axygen® Maxymum Recovery® pipet tip internal surface compared to the surface of both standard polypropylene pipet tips and siliconized pipet tips. The photographs were taken of the internal surface of sections cut from three styles of pipet tips via SEM/EDS. Magnification levels ranged from 50X to 5,000X.

Maxymum Recovery Pipet Tips

50X

500X

5,000X

Figure 1. Images of the Axygen Maxymum Recovery surface. Even at the highest magnification level, the ultra-smooth surface is visibly free of occlusions and cavities that can cause sample retention and sample denaturation in standard polypropylene.

Conventional Pipet Tips

50X

500X

5,000X

Figure 2. Images of the internal surface of a standard polypropylene pipet tip. Occlusions and cavities can be seen on the wall surface. At highest magnification, surface strands, which cause samples to “stick,” are clearly visible.

Siliconized Pipet Tips

50X

500X

5,000X

Figure 3. Images of a siliconized pipet tip. The lack of smoothness of the walls is created by an inconsistent and uneven flow of silicone upon the surface. With siliconized pipet tips, sample retention occurs evenly.

Ordering Information

Axygen GEN3 Multi-barrier Pipet Tips

Cat. No.	Description	Qty/Rack	Qty/Unit	Qty/Cs
GEN3-10-L-R-S	GEN3 10 µL multi-barrier pipet tip	96	10	5
GEN3-20-L-R-S	GEN3 20 µL multi-barrier pipet tip	96	10	5
GEN3-200-L-R-S	GEN3 200 µL multi-barrier pipet tip	96	10	5
GEN3-1000-L-R-S	GEN3 1,000 µL multi-barrier pipet tip	100	10	5
